**UNIT PRICE: \$3,615.26**

**System Description:** The Total Coliform MEL (Microbiological Environmental Lab) Laboratory is designed for analysts who need portable or small-scale microbiology testing capabilities. From a remote field location to a small scale microbiology lab within your existing lab, this MEL offers all the equipment and accessories to perform microbiological analysis.

Our MEL/MF (Microbiological Environmental Lab/Membrane Filtration) Total Coliform Lab comes as a complete membrane filtration system. This lab is ideal for supporting disinfection adjustments or modifications, short-term and seasonal monitoring, emergency field operations, or as a microbiology lab within an existing facility.

A charged battery for the portable incubator will last 12 hours at ambient temperature. Because microbiological tests normally require at least 24 hours incubation, the portable incubator is best used for transport of samples to a place where the incubator can be plugged into an electrical outlet using the battery eliminator. The portable incubator can also be plugged into the cigarette lighter of an automobile.

At minimum take 3 charged batteries with you into the field. The total number of batteries needed depends on the incubation time for your test, the temperature at the location where the incubator will be used, and the availability of an electrical outlet or automobile. The batteries can be recharged using the battery recharger, which must be plugged into an electrical outlet.

**Features:**

- Step-by-step, illustrated procedures manual
- Portable Incubator (Battery not included. Can be powered from automobile cigarette lighter receptacle.)
- 200 Whirl-Pak Bags with dechlorinating agent for sampling
- 200 funnel assemblies (include membrane filter, petri dish with pad, and funnel) individually packed for sterility
- Portable, illuminated magnifier with 2.5X and 5X magnification
- Forceps and alcohol burner
- Armored alcohol thermometer, -10 to 110 °C
- Five germicidal cloths for disinfecting test surfaces
- Colony counter
- MF Petri Dish Rack
- Media must be ordered separately (ensures longest shelf-life)
